

Your DMS Inventory Module: What's New in the Latest Update?

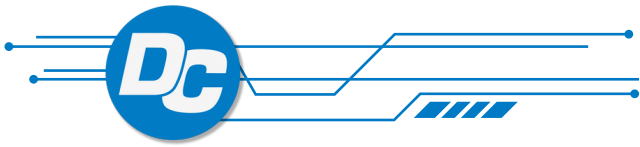

DC Introduction

Discover the latest advancements in your DealerCenter DMS Inventory Module. This guide highlights our newest features, designed to streamline your inventory management and enhance your user experience. With responsive design and intuitive controls, managing your dealership's inventory has never been easier.

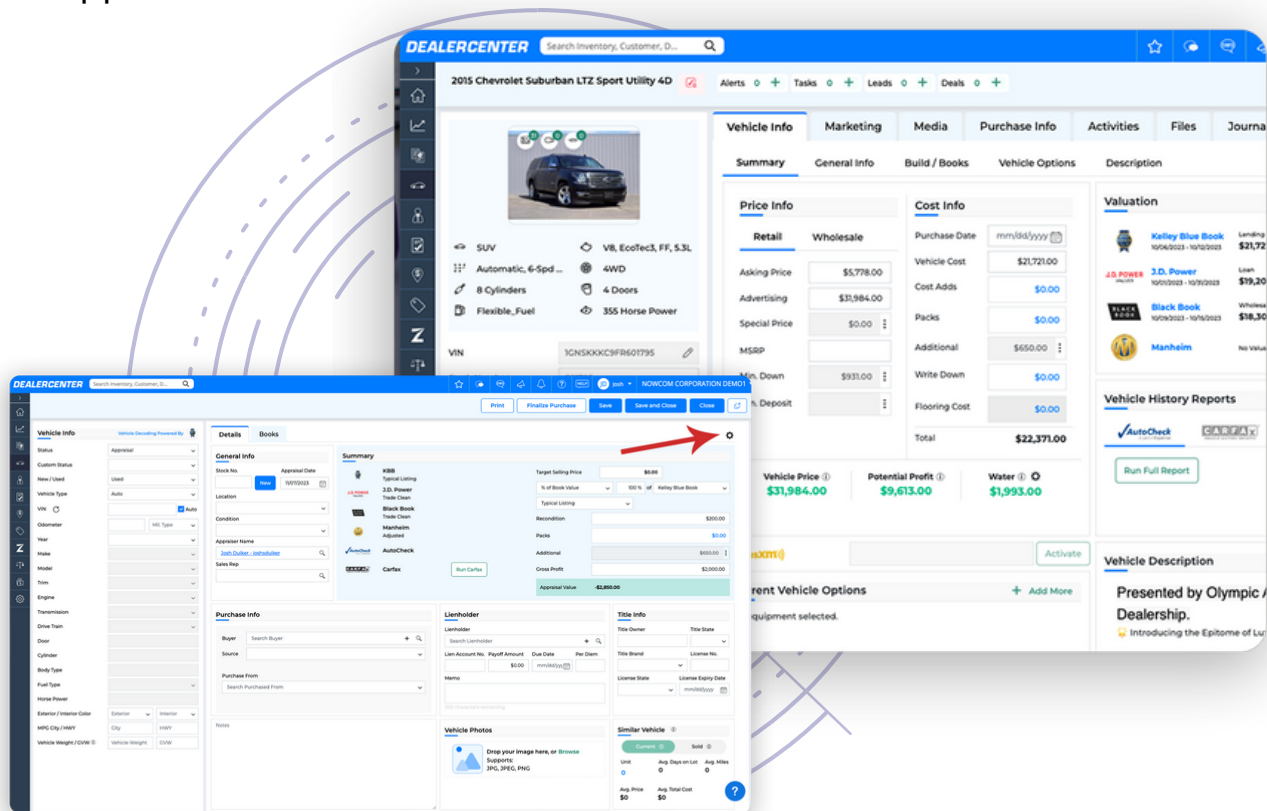

Helping dealers succeed by providing them with innovative and effective solutions.

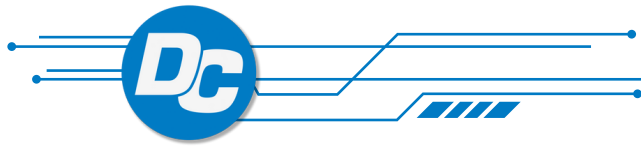

What's New?

- **Responsive UI Design:** Experience our interface's fresh look, optimized for usability across all your devices.
- **Optimized Workflow:** Experience a seamless appraisal process with dedicated screens for appraisal and active inventory.
- **Link Management:** With the new “Open links in new tab” feature, navigate your DMS without losing your place.
- **Vehicle Navigation:** Quickly move through your vehicle inventory with Prev/Next controls.
- **More Customizable:** Customize your default Book Values
- **Quick Edit Settings:** Manage settings with ease right from your Appraise screen.

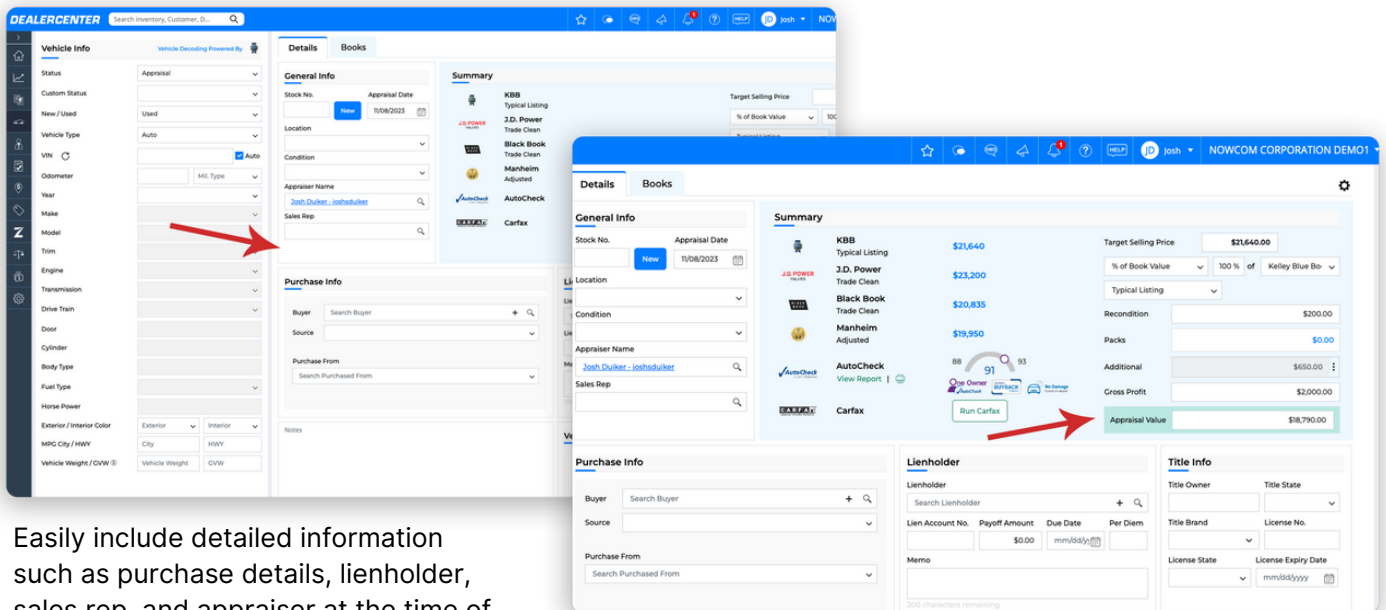

Settings Quick Access

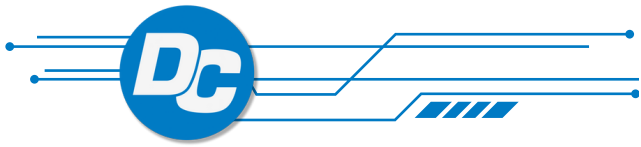

Vehicle Appraisal

- **Revamped Appraisal Workflow:** Navigate our improved process for appraising vehicles and managing trade-in statuses.
- **Comprehensive Data Capture:** Effortlessly include detailed information such as purchase details, lienholder, sales rep, and appraiser at the time of appraising the car.
- **Instant Appraisal Values:** Calculate values instantly using book value, market data, and associated costs.

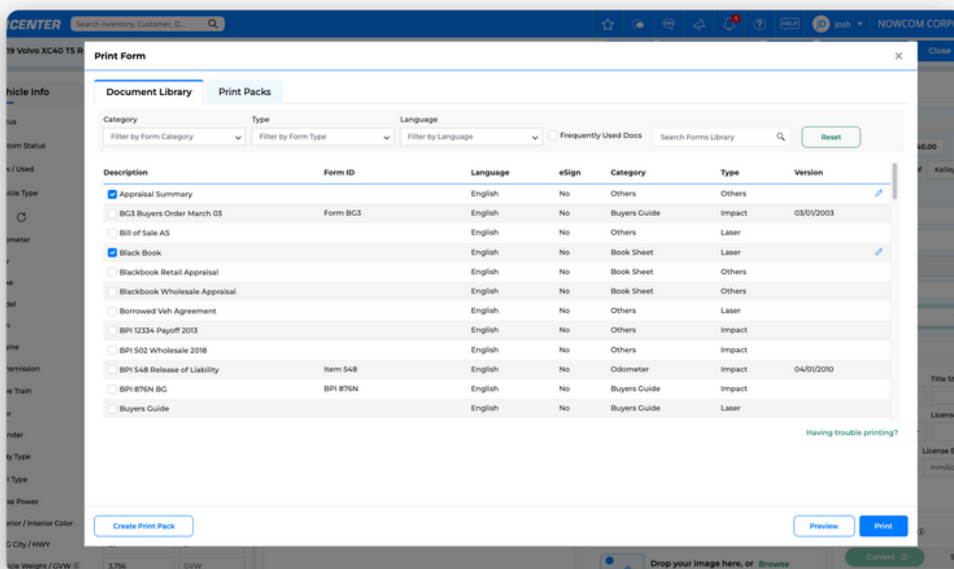

Easily include detailed information such as purchase details, lienholder, sales rep, and appraiser at the time of appraising the car.

Let DealerCenter help you automatically calculate appraisal values

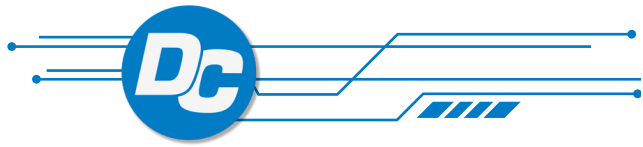

Vehicle Appraisal

- **Similar Vehicle Views:** Compare similar vehicles and review historical sales data with ease.
- **Direct Purchase Capability:** Acquire vehicles directly from customers, streamlining the inventory addition process.
- **Document Management:** Access a wider range of printable documents and manage print packs efficiently.
- **Appraisal Details Page:** Focus on the essentials with a dedicated page for appraisal details.
- **Finalize Appraisals:** Complete appraisals and add multiple payments swiftly on the final screen.
- **Multiple Payment Options:** Introduce flexibility with the ability to add various payment types during vehicle acquisition.

The new Document Library provides enhanced doc access right from your appraisal pages so you can easily access and print docs like appraisal summaries, release of liability forms, etc.

Vehicle Details Page

- **Essential Information at a Glance:** Find all critical vehicle details prominently displayed on the main screen.
- **Enhanced Media Management:** Organize photos, videos, and 360 views under the Media tab for a consolidated viewing experience.
- **Marketing Made Easy:** Post vehicles to Craigslist, Facebook, OfferUp, and other third-party sites with simplified controls.
