

PROGRAM GUIDELINES

INTRO

The Funding Process is designed to ensure that we 1) have a legally compliant contract, 2) understand the facts of each deal (customer, vehicle, and deal structure), and 3) assess the risk of each deal at the time we are evaluating the deal for funding. Prior to funding, if we learn that any of the requirements are not met, we will notify the dealer and customer regarding what requirements need to be adjusted.

Funding risk-adjusted deals as quickly as possible is the primary objective. When submitting deals for funding, please ensure the deal packets are clear and complete. *It is the dealer's responsibility to verify the validity of the customer's information as stated on application and submitted in online portal.*

The information below is intended to be a reference which enables our dealers to know what we are looking for, so we can achieve alignment on the deal facts and meet our fast-funding objective.

Self-Employed – Turbo Pass: (Self Employed Customer verified Turbo Pass)

The baseline (30 -120 days) of primary total deposits will be used to calculate the monthly income.

If the baseline is not available, the Company will use the average of 1-90 days of the primary total deposits to calculate income as long as the income is consistent over 90 days and deposits are considered income.

If bank account has additional account holders other than signer on account, income is divided unless it is clear to whom the income belongs. Additionally, if the statement summary shows less than 120 days of information, job time will be reduced proportionally unless the bank will only provide the 90 days as shown on the Turbo Pass report. Multiple Owners of Business – Divide the monthly income by number of owners.

**See more specific guidance on [Transfers](#). -- The baseline average ending balance (AEB) must be greater than or equal to the customer's monthly payment on contract. If the baseline is not available, we will use the average ending balance over 1-90 days. Transfers within an individuals' own bank accounts (i.e., Checking/Savings, etc.)

Workers' Compensation

Food Stamps

SNAP (Supplemental Nutrition Assistance Program)

Wires and Credits (wires must show source)

Deposits that are seen coming in and out of the same account

Transfers (on bank statements)

Acceptable Transfers

Money deposits that are received from Zelle, CashApp, Venmo, PayPal or other similar payment platforms, deposits cannot be from family members or Dealers.

Uber/Lyft, DoorDash or other common food delivery or ride share companies that show consistent income transfers will be accepted as long as income does not conflict with information reported on third-party verifications like TWN.

Not Acceptable Transfers

Transfers within an individual's own bank account (i.e., Checking/Savings)

Income Calculation

Automated Calculation:

Western Funding offers a tool via DealerCenter (and DealerCenter Portal) which can **automatically calculate income** for the most common income types. Using this feature, known as the [Income Verification Tool](#), ensures the highest likelihood of calculating the correct income amount prior to submitting a deal. This tool can review and evaluate the proofs associated with the following income types:

Computerized Paystub w/ YTD

SSI Buyer

Military Income

The Work Number (TWN):

A third-party verification site used for employment and income verification.

The Originations Team will use results from the Income Verification tool or TWN when available. Using these tools greatly improves the likelihood that the income that supports your quoted advance is the income that the originations team verifies. On TWN the hint provided in the Buy Program summary will show an income amount that is the sum of the two jobs. Dealers should separate the two incomes in the application as the originations team will break out the two incomes separately. During the funding process if they are combined it could cause a change in net check. The customer MUST show active and not on leave or terminated.

Manual Calculation:

This approach is still valid and below is guidance to help dealers reduce the risk of receiving a “negative surprise” based on the receipt of several of the most common proofs of income:

Computerized Paystubs (W2 Customers):

Use the Income Calculator tool in DealerCenter

This tool can be found where you enter income by clicking on the  symbol and entering the correct inputs into this step-by-step tool.

Bank Statement with direct deposits (W2 Customers):

Require a minimum of two most recent months. Will add all the direct deposits on the two months and divide by two regardless of the pay cycle.

Turbo Pass we will add all the direct deposits reported and divide them by the total months reported. So, if 90 days reported will add all the direct deposits over 90 days and divide by three regardless of the pay cycle.

Note: *Any time there is an inconsistent earnings event such as high overtime or a bonus payout that is not sustained, the Pay Period approach can overstate ongoing monthly gross income. If the customer’s employment circumstances have changed (change in hours, part time to full time, promotion, leave of absence, etc.) then additional paystubs or verification may be required. Please indicate by either writing on the Paystub or Comment on the deal.*

However, unless we are directly aware of and can support the facts surrounding the explanation of the difference, we will apply the calculated income.

Turbo Pass (Self Employed Customers):

Review deposits to ensure that they are considered income. Baseline for Primary Deposits is used as long as a baseline is available, and all deposits are considered income. For example, if payroll deposits are on the baseline and the customer is self employed we will not consider the payroll deposits as income for self-employed. If payroll deposits appear to have withholdings, we will ask for a paystub/invoice to validate customer is 1099.

Multiple Owners of Business – Divide the monthly income by number of owners.

Example if a bank account has a baseline of \$9,000 and all deposits are countable, and the business has 3 owners then you would take $\$9,000 / 3 = \$3,000$

Example if a bank account does not have a baseline and the total primary deposits 1-90 days is \$15,000 and they are all countable deposits then you would take $\$15,000 / 3 = \$5,000$ if there is 2 owners then you would divide the \$5,000 by 2 and the monthly income is \$2,500

Cancelled Checks

Add 3 most recent months of cancelled checks and divide by 3 to determine the monthly income

Fixed Income SSI/VA/Retirement

Enter monthly gross paid on statement
If using bank statement to prove enter the Net received monthly.

Job Time

Enter the time that the customer has been at their present job. The income calculation tool inside of Dealer Center allows you to enter the exact hire date to ensure accuracy. If the customer previously worked for a temp agency and then was hired on with that company, please use the time that the employer will verify, which is usually the date they made the customer a permanent employee. 

SPECIFIC DEAL REQUIREMENTS:

Max APR

Max APR is 30% but state usury rates will supersede when applicable.

Bankruptcies

Western Funding must be listed as lienholder / loss payee

NOTE: *The Company does not require proof of Full Coverage Insurance when the contract has an Amount Financed of \$6,500 or less.*

Mileage

WFI must use the mileage listed on the odometer statement for booking and approval purposes. The mileage listed on the odometer statement should be listed as the miles at the time of sale to the customer. If true miles are unknown, then the customer's acknowledgement of the true miles unknown is required on the odometer statement.

Open Auto Loans

The number of open auto loans can vary. The Buy Program will determine the max allowed. However, if an open auto is a Westlake Financial Services or Western Funding account, the customer can have a MAX of 2 open autos including the new one. Additionally, the customer must have **at least 5** monthly payments made and account must be current at the time of funding.

Phone Bills

If a past due phone bill is received the deal will be turned down and ineligible for resubmission.

If a deal requires a phone bill that means that we are unable to validate the customer's phone number with 3rd party tools. All phone bills will need to be current or proof that the phone bill is current. Acceptable forms of phone bill are:

Phone bill with customer's name and phone number

Turbo Pass report that has the customer's number verified by the Institution

Family Plan, customer's name must be listed with either customer name, family plan owner name or blank

Customer must provide contact information for number of references on the form that we provide in the PrintPack. Dealer employees are not permitted as references for customers.

Dealer must provide a signed 3rd party vehicle service contract that matches the details listed on the retail installment contract including the date. This 3rd party vehicle service contract must be signed by customer and dealer when applicable. The 3rd party vehicle service contract must be a minimum of 6 months term. The 3rd party vehicle service contract cannot have the dealer listed as the claim administrator.
